Phone number: 8698328382 , Email : juyalprashant50@gmail.com

Summary

Master's student in Computer Applications with a BCA background and hands-on experience in full-stack development. Passionate about applying technical expertise in python, Java, and web development to real-world challenges. Seeking opportunities to contribute and grow in a dynamic tech environment. Known for my energetic and punctual nature, I excel in fast-paced environments and am adept at handling pressure with professionalism. Seeking an entry-level position to actively contribute and further develop my expertise in the field.

Skills

- Java, Python
- JavaScript, Ajax, PHP, Laravel
- Database Management, MySQL
- Android Developer
- MERN Developer

Internship

01/2023 – 05/2023
Vadodara, Gujarat,
India

Full Stack Developer Intern **BULWARK SYSTEMS, Complete Technology Solutions An ISO 9001& ISO 27001 Certified Company**

- It was a web-based application designed to help teams manage and track tasks efficiently during a four-month internship at Bulwark Systems Company
- The system allowed users to create, assign, update, and track tasks with different status levels like 'In Progress,' 'Completed,' and 'Pending.'
- We used Spring for dependency injection and creating RESTful APIs, Hibernate for database management and handling ORM (Object-Relational Mapping), and JSP to build the front-end user interface.

Experience

MERN Stack Developer

- Developed and deployed robust web applications using the MERN stack (MySQL, Express.js, React.js, Node.js)
- Designed and implemented RESTful APIs using Node.js and Express.js to

facilitate efficient client-server communication.

- Built responsive, dynamic user interfaces with React.js.
- Optimized database schemas and queries in MySQL, ensuring data integrity and performance scalability.
- Designed and implemented React Router for seamless navigation across multiple pages and dynamic components.
- Utilized localStorage for efficient client-side data storage, enabling faster user interactions and offline capabilities.

Laravel Developer

- Developed scalable web applications using the Laravel framework, adhering to the Model-View-Controller (MVC) architectural pattern.
- Designed and integrated responsive front-end interfaces using Blade templates and Bootstrap, improving usability and aesthetic appeal.
- Built robust Controllers to handle business logic and ensure smooth communication between models and views.
- Built interactive forms that used AJAX for real-time validation without requiring full-page reloads.

Education

08/2023 – present
Vadodara, Gujarat,
India

Master of Computer Application
ITM Baroda University Vadodara

09/2020 – 08/2023
Vadodara, Gujarat,
India

Bachelors of Computer Application
ITM Baroda University Vadodara

06/2019 – 04/2020
Ponda , Goa, India

Higher Secondary
S.S.Samiti, Kavalem, Ponda, Goa

06/2017 – 04/2018
Ponda, Goa, India

Secondary
V.D & S.V. Wagle High School Mangeshi, Ponda, Goa

Certifications

- **AI-Fusion Participation:** Participated in Research Paper competition organized by ITM Baroda University.
- **CodeAthon(Coding Olympiad)** : Appreciation Certificat
