Portfolio: <https://prash-ant01.github.io/Portfolio/>

📌 Objective

Master's student in Computer Applications with practical experience in full-stack development. Skilled in Java, Python, and web development, I aim to contribute to innovative projects while enhancing my technical expertise. Seeking an entry-level position to grow professionally and add value to a dynamic organization.

🔧 Skills

- Java, Python
- JavaScript, Ajax, PHP
- Database Management, MySQL
- Android Developer

📁 Internship

Jan 2023 – May 2023
Vadodara, Gujarat

Full Stack Developer Intern

BULWARK SYSTEMS, Complete Technology Solutions An ISO 9001 & ISO 27001 Certified Company

- Worked on a web-based Task Management System.
- Implemented CRUD operations for task management (Create, Read, Update, Delete).
- Used Spring for RESTful APIs and dependency injection.
- Used Hibernate for ORM and database management.
- Built the front-end interface with JSP

📁 Experience

MERN Stack Developer

- Developed web apps with MERN stack (MySQL, Express.js, React.js, Node.js).
- Worked on CRUD operations for product management.
- Used React Router for navigation.
- Enabled offline functionality with localStorage.

Laravel Developer

- Developed scalable web apps with Laravel using the MVC pattern.
- Designed responsive UIs with Blade templates and Bootstrap.
- Created Controllers for business logic and smooth model-view communication.
- Built AJAX-enabled forms for real-time validation.
